# ABDULRAHMAN SHEHADEH

CHAIRMAN AND FOUNDER

**Mr. Abdulrahman Shehadeh's** journey is one of resilience, vision, and boundless wisdom. In **2007, he founded Philadelphia Solar** Jordan, driven by a profound commitment to renewable energy and a sustainable future. But his story began decades earlier in 1976, when he established Alico in the UAE. Through tireless dedication, he transformed Alico from a single venture into a thriving network that now includes Gulf Glass Industries, Alico Kuwait, Schüco Middle East, and Alico Egypt, setting benchmarks in innovation and growth.

Today, as Chairman of Al-Badiah Electricity Generation Company, **Mr. Shehadeh** stands as a beacon of perseverance and progress. His unwavering dedication to making a difference is woven through every stage of his remarkable career.

“ Our commitment to Philadelphia Solar is a commitment to future generations. We are investing in a legacy, knowing that the true rewards will unfold in the years to come. ”
